Digital Cookie: <https://digitalcookie.girlscouts.org/login>

Digital Cookie is the system used by Troop volunteers to monitor online sales, set up and share troop online sales links for shipped cookie orders and virtual booth sales, send cheers to troop members, process booth credit card payments (on the mobile app), and if needed, refund online orders for customers. For assistance, you can utilize the Help resources found in the site, contact your Service Unit cookie manager, or contact Girl Scouts River Valleys.

Volunteer Registration/Login

Step 1: Watch for your registration email* from the Girl Scout Cookie Program ([email@email.girlscouts.org](mailto:email@girlscouts.org)). Your council will let you know what date to expect it. You may receive your volunteer email before parents have access. Be sure to add that email address to your safe senders list so you don't miss any emails!

Step 2: In the email is a “Register Now” button to take you to the Digital Cookie registration site. Simply click that button!
(For best results, use the most up to date version of your web browser)

Step 3: Once you click the link you'll be on the Digital Cookie platform, and you'll

NOTE: If parent access has not opened in your council, you will not see your Girl Scout's information or be able to access her site until it opens.

Once parent access has begun, if you have additional roles and aren't taken to this screen OR all of your roles do not show up on the drop down, please contact your Girl Scout council for assistance.

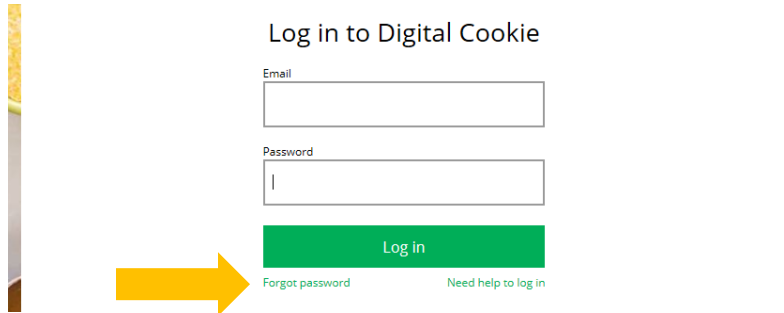

Each time you login you can indicate what role you want in order to get to the correct homepage. You can also navigate to your other roles at the top of all of your screens by using the drop down.

No Registration Email Received

In order to receive a Digital Cookie registration, a Girl Scout must be registered for the current membership year and the Girl Scout council will need to have the correct email address on file for her primary caregiver.

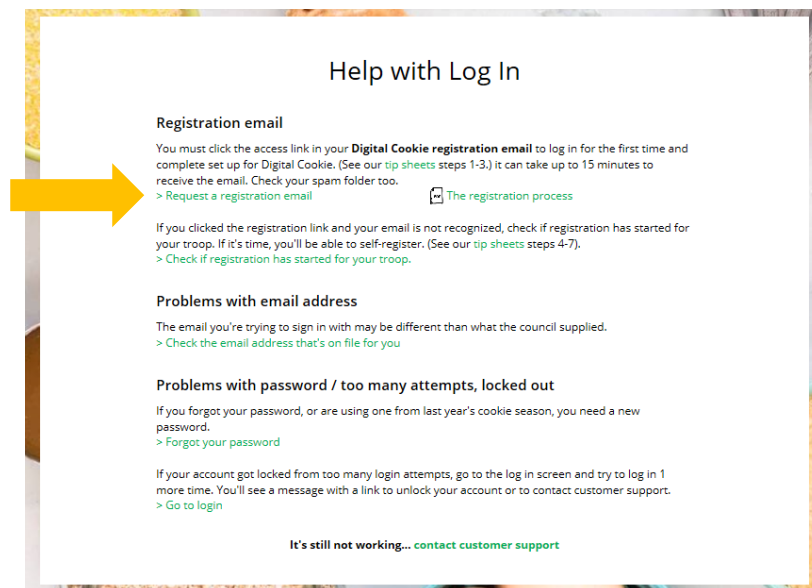

Step 1: Check your junk/spam/promotions inbox one more time for an email from “Girl Scout Cookies” (email@email.girlscouts.org) with the subject “It’s time to register your Girl Scout for Digital Cookie!”. If you do not see the email, follow these steps to get registered for Digital Cookie.

Step 2: Go to digitalcookie.girlscouts.org and click the “Need help to log in” link.

(For best results, use the most up to date web browsers)

You will get a screen of steps you can use to try and get registered for Digital Cookie.

Digital Cookie®

Step 3: Start by clicking on the “Request a Registration Email” and enter the email address that you used to register your Girl Scout.

Request a Digital Cookie Registration Email

Enter the email address you have on file at Girl Scouts and we'll send you a Digital Cookie registration email. It can take up to 15 minutes to receive the email.

Troop Virtual Booth Links

Your Troop Virtual Booth links will help your troop make sales online instead of, or in addition to, your regular in person cookie booths. When you set up your Troop Virtual Booth site, there may be two links you can use, depending on your council's settings. These links will let your troop reach new customers in your local community and beyond.

Setting up your Troop Virtual Booth Site

Step 1: The first time a leader or cookie volunteer for the troop logs in to their volunteer role in Digital Cookie, they will see a place to begin the process to have a troop virtual booth link.

To begin, click the “Start” button.

Step 2: You will be asked to enter a zip code for your troop. Enter one that is representative of the majority of the Girl Scouts in your troop

You will also select a name from the drop down of one of the volunteers from the troop to serve in the role of “Troop site lead”. The Troop site lead will be responsible for working with the Girl Scouts in the troop to set up the Troop site and approving orders.

Once the first volunteer for the troop has made those selections, everyone will see the selections that have been made and can change them if needed.

Digital Cookie®

Step 3: If you assigned yourself to be the troop site lead, your dashboard will be updated with a Set up your site button. If you have assigned another troop cookie volunteer to be the troop site lead, the next time they log into Digital Cookie they will see the new role in their role selector drop down.

To begin setting up the troop site, click set up your site.

The site lead will then need to complete the registration process as if the troop were a new Girl Scout by possibly watching the safety video and accepting the terms & conditions and Girl Scout pledge, plus activating the account.

It is important to leave the Preferred First Name as it appears so it's clear this is your Troop Site. If there is an issue with the troop number, please contact your Council Customer Care to resolve before proceeding.

After that, the Troop Site Lead will use the “Site Setup” to work with the Girl Scouts in the troop to create their message and photo/video. It functions the same way as the Girl Scouts’ Site Setup. Be sure to see the “*Site Setup Girl Scout Under 13*” Tip Sheet for additional information.

Once the site is published and the council’s sale is live, the troop will have two links to use if they wish for the cookie season.

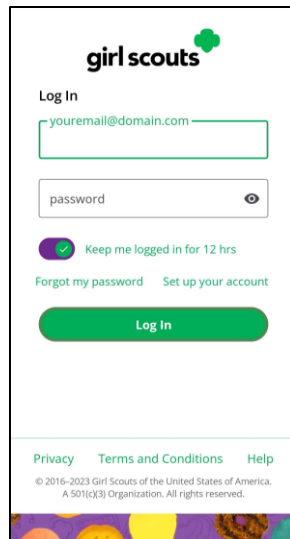

Digital Cookie[®]

Mobile App

Girl Scouts and troop volunteers can use the Digital Cookie Mobile App to process and review orders placed through the Girl Scout’s individual site as well as the troop site.

Users will start by downloading the Digital Cookie Mobile App from the iTunes or Google Play store. The app is free and can be found by searching for “Digital Cookie Mobile app.” Users should download a new version of the app every year.

The same email and password used to access Digital Cookie is the same to log into the mobile app. **Note: The app will only work if the Girl Scout/Troop’s Digital Cookie website is set up and approved, and the council mobile app access date has started.**

Once a user is logged into the app they see the different accounts available. The user will select which account they want to use. The [Girl Scout view](#) is used to take sales on behalf of a specific Girl Scouts. The [Troop view](#) is used to take sales on behalf of the troop and not an individual, for example at a troop booth.

Digital Cookie®

Logged in as Girl Scout

From the home page, the user can select “New Cookie Order”, “Visit My Site,” “Email My Site,” or “All Orders.”

Email My Site is used to send their cookie link to a potential customer who doesn’t want to continue the transaction at the immediate time. The Girl Scout will ask for the customer’s contact information, enter it in the app, and send the email. The customer will receive an email to purchase cookies.

The customer’s information will populate into the Girl Scout’s Customer tab in Digital Cookie under the Mobile App section. The Girl Scout will need to add the customer to their list prior to sending additional emails or to keep the customer for future seasons.

Visit My Site is used to see the Girl Scout's QR code. Girl Scouts can then show the customer their phone for the customer to scan the QR code which will take them directly to the Girl Scout's site to make a purchase.

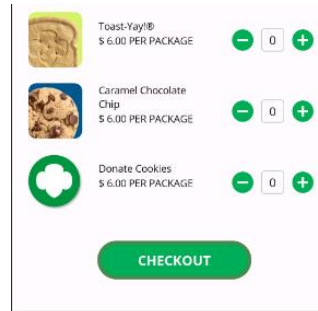

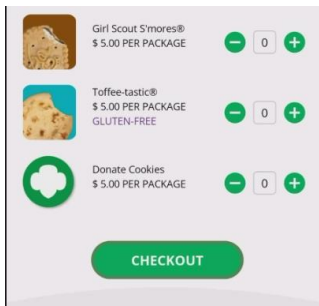

New Cookie Order is used to take cookie orders directly through the app.

Step 1: Click the New Cookie Order button to be taken to the order screen to enter which cookies the customer wants to order by using the “+” and “-” buttons.

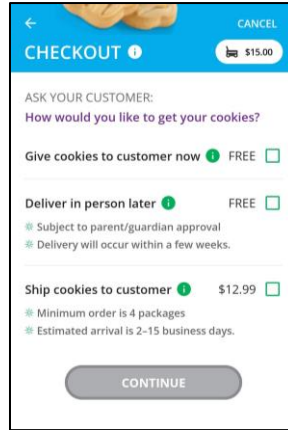

Once the correct number of cookies have been selected the Girl Scout will click the “CHECKOUT” button.

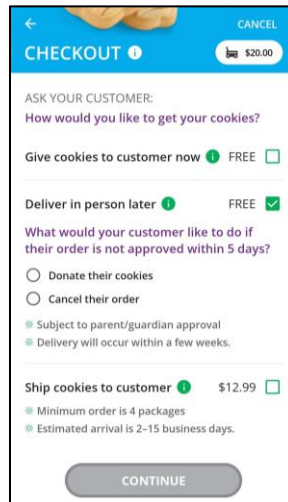

Digital Cookie[®]

Step 2: Select how the customer would like to receive their cookies. Options may vary based on what the council is making available. After marking the selection, click continue.

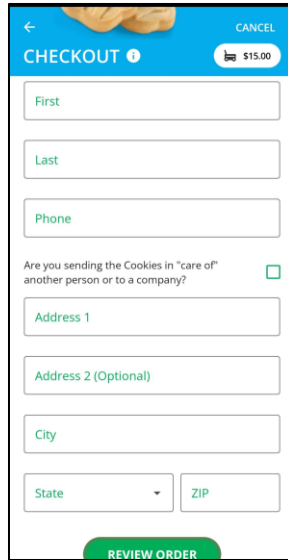

If deliver in person later is selected, the Girl Scout will need to ask the customer what they would like to do if their order can't be approved by the parent within five days, the same as all delivery customers are asked at checkout. Once the selection is made, she can continue with the checkout process.

Digital Cookie[®]

Step 3: Review order and enter customer and payment details. Girl Scout’s can review the order with the customer and gather the customer’s information including payment details.

If the order is shipped or delivery, the Girl Scout will then complete the customer information for where the cookies will be shipped/delivered to.

When users are logged in as the troop, they will see the same dashboard as if they were a Girl Scout and have the same choices “New Cookie Order”, “Visit My Site,” “Email My Site,” or “All Orders.” Many of the steps taken as a Girl Scout are the same as a troop. This section will focus on the different functionality.

New Cookie Order: When processing a new order, during the checkout steps, if the selection “Give cookies to customer now” is selected the user will see additional options. Depending on the council’s settings, once a user has selected “Sold at a booth” they may be able to select that specific booth. When reviewing the order users can see which booth was selected.

Approving orders: all users when logged in as the troop will be able to view, approve/decline orders the same way Girl Scouts can above. Troop volunteers should discuss with family members how they want the troop orders to be handled prior to using the app.

Troop Refunding Orders

If your council has enabled this function, as a troop volunteer you will have the ability to refund in-person delivery, pickup and donation orders to customers.

Step 1: Start by navigating to the “Orders” tab on your troop dashboard. If it is a lighter color or you can’t click on it, your council has not enabled it and you will need to consult your council to make any customer refunds.

Step 2: On the Order tab you can look up orders a few different ways. Select one of the lookup options, selecting more than one can cause the results to not appear properly. The recommended lookup options are:

- Customer Order #
- Customer Email address
- Parent Email Address
- Girl Name (first and last)
- Customer Name (first and last, min 2 letters)

The screenshot shows the 'Orders' search form. It has a green header with the word 'Orders'. Below the header, there are several sections for search criteria: 'Search for' (set to 'Orders'), 'Customer information' (with fields for Order #, Date Range, Order Status, Payment Status, First Name, Last Name, Phone, and Email), 'Girl/Parent' (with fields for Girl First Name, Girl Last Name, GSUSA ID, Site URL, and Parent Email), and 'Organization' (with fields for Council Name, Council Code, SU Name, SU ID, and Troop #). There is a 'Search' button at the bottom and an 'Export to Excel' link in the bottom right corner.

When you click “search” the results will come up if any match

The screenshot shows the search results table. It has a green header with the word 'Search' and an 'Export to Excel' link. The table has columns for Order Date, Order #, Order Type, Customer Name, Total, Order Status, Payment Status, Girl Name, Council Name, and Troop #. There is one entry in the table:

Step 3: The Order details page include all order information including customer details. At the top, next to payment status will be a Refund button.

Clicking the Refund button will bring up another screen and you need to click Full Refund to continue with refund.

You will select an option for refund reason. In general, you will choose “In person delivery issues” unless otherwise instructed by your council.

Then add information to the notes section so that if anyone looked at this order in the future they would know why the refund was made. This might be a national customer service person, so please give a thorough explanation.

Once all the information has been completed, click Yes to continue with the refund. At that point, the automated process to refund the consumer will execute. Depending on the customer’s bank, it can take a few weeks until their bank will show the refund on their account.

To verify the refund went through, you can scroll to the bottom of their order details and see “refund_follow_on” in the “Payment Transactions” section and see the date the system processed it.

Troop Virtual Booth Links

Your Troop Virtual Booth links will help your troop make sales online instead of, or in addition to, your regular in person cookie booths. When you set up your Troop Virtual Booth site, there may be two links you can use, depending on your council's settings. These links will let your troop reach new customers in your local community and beyond.

Setting up your Troop Virtual Booth Site

Step 1: The first time a leader or cookie volunteer for the troop logs in to their volunteer role in Digital Cookie, they will see a place to begin the process to have a troop virtual booth link.

To begin, click the “Start” button.

Step 2: You will be asked to enter a zip code for your troop. Enter one that is representative of the majority of the Girl Scouts in your troop

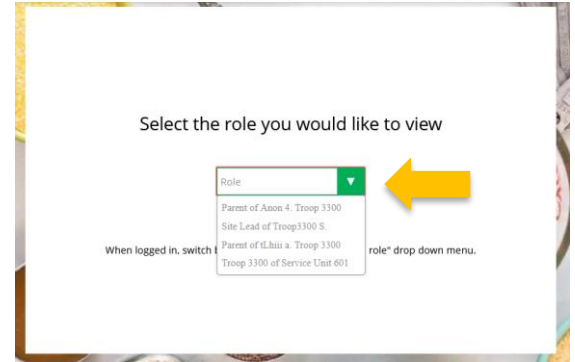

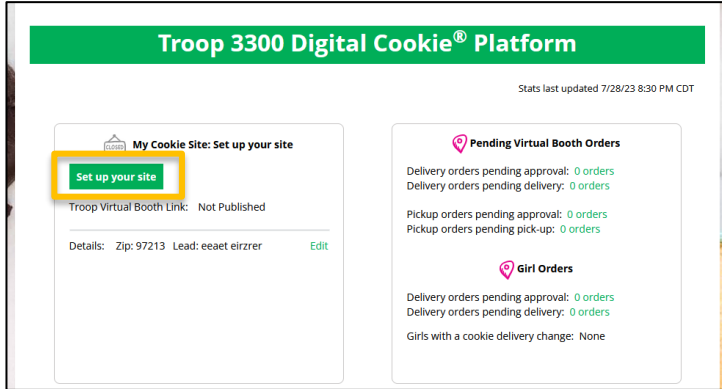

You will also select a name from the drop down of one of the volunteers from the troop to serve in the role of “Troop site lead”. The Troop site lead will be responsible for working with the Girl Scouts in the troop to set up the Troop site and approving orders.

Once the first volunteer for the troop has made those selections, everyone will see the selections that have been made and can change them if needed.

Digital Cookie®

Step 3: If you assigned yourself to be the troop site lead, your dashboard will be updated with a Set up your site button. If you have assigned another troop cookie volunteer to be the troop site lead, the next time they log into Digital Cookie they will see the new role in their role selector drop down.

To begin setting up the troop site, click set up your site.

The site lead will then need to complete the registration process as if the troop were a new Girl Scout by possibly watching the safety video and accepting the terms & conditions and Girl Scout pledge, plus activating the account.

It is important to leave the Preferred First Name as it appears so it's clear this is your Troop Site. If there is an issue with the troop number, please contact your Council Customer Care to resolve before proceeding.

After that, the Troop Site Lead will use the “Site Setup” to work with the Girl Scouts in the troop to create their message and photo/video. It functions the same way as the Girl Scouts’ Site Setup. Be sure to see the “*Site Setup Girl Scout Under 13*” Tip Sheet for additional information.

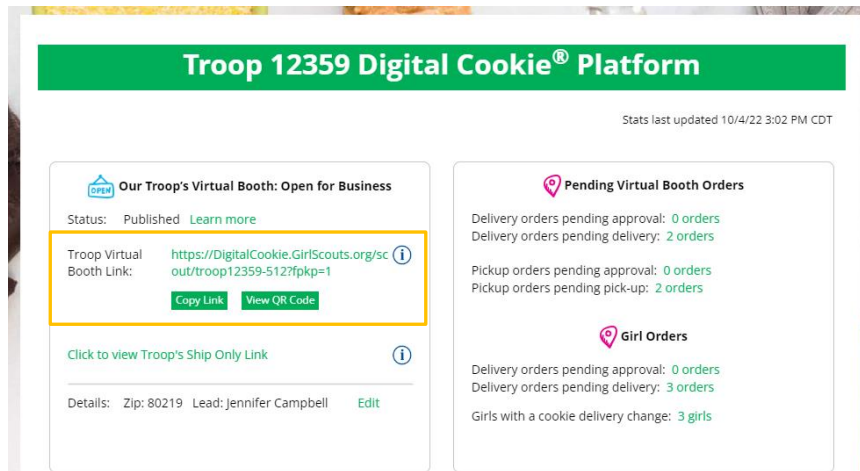

Once the site is published and the council’s sale is live, the troop will have two links to use if they wish for the cookie season.

Troop Virtual Booth Link

From your Troop Dashboard, you may see two links available for your troop. If you only see one, your council has made a decision that the second link is not a good fit for the program at this time.

If you see both, the top link is your Troop Virtual Booth Link.

This link will function the same as any Girl Scout's link with Shipping, Donation, Delivery and In Hand (on the app) as options that customers can use when enabled by your Girl Scout Council. You can turn delivery off for the troop link the same way a caregiver can turn delivery off for their Girl Scout.

If pickup is an option in your council, this link will enable customers to select pickup orders as a delivery type. See the *Troop Pickup Orders* tip sheet for more information.

The Virtual Booth link is available to copy and share and even has a QR code that can be used on marketing materials. Your Girl Scout Council can provide ideas on how to best use your Troop's Virtual Booth Link.

Troop Ship Only Link

The Troop Shipped Only link is available if you need a shipped/donated only link. You can find this beneath the Troop Cookie Link and if you click on it, you will see the full URL and QR code for this link.

This link will only allow customers to purchase Shipped and Donated orders. This link will be sent to the National Girl Scout Cookie Finder beginning National Girl Scout Cookie Weekend (check with your council for specific date).

Once your site is set up and published, there is nothing additional you will need to do in order to have your Troop Ship Only link appear to customers coming to the cookie finder to find a troop near them to purchase shipped cookies from.

All purchases on either of your links will appear in your troop records in your baker software. Your council team will share additional information about that with their training.

Troop Booth Pickup Orders

The ability for customers to purchase from your troop can happen at a booth, or virtually using Digital Cookie. One great feature your troop can offer customers is the option to pre-pay for an order for pickup at a cookie booth your troop has scheduled. Let customers know that if they choose that option, you are sure to have the cookies they want and it speeds up their cookie buying process-no waiting outside in the cold and rain to make an order.

To activate that for your troop customers, there are just a few steps to set up that option using the cookie booths you have signed up for.

Setup

Step 1: Start by navigating to the “Virtual Booths” tab on your troop dashboard.

Start by selecting an existing cookie booth from your list by clicking on “Add Pick-Up Option”

Digital Cookie®

Step 2: Once you have selected a booth to add a pickup option for customers to, you will need to enter a few details about when the customer will see that pickup location as an option.

NOTE! Consider ending that option 12-24 hours before the booth sale will begin so you have time to review and approve all orders. If you have concerns about inventory for pickup orders, consider ending the option even earlier so you can secure the necessary product for the orders.

Step 3: If you need to edit or delete your pickup locations, you can view your list of pickup locations and edit or delete them.

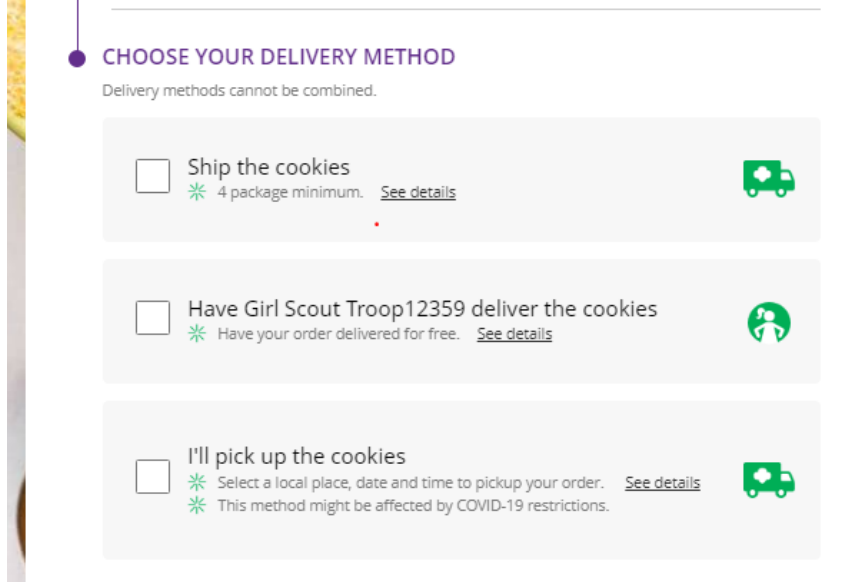

Important! If you cancel a booth in the bakers system, you must delete the booth from here so customers can no longer select it as a pick-up option. Check your orders tab for any orders that were scheduled to be picked up and make alternate arrangements or cancel and refund them

Customer View

When the customer gets your troop link and wishes to make a pickup order, here is what it will look like for them.

Step 1: They select “I’ll pick up the cookies” as an option at checkout

Step 2: They will be asked for a zip code and see your booths with pick up options closest to that zip code. They will select with booth location and date/time they want to pick up those cookies.

Digital Cookie[®]

Step 3: The checkout screen will automatically populate the address as the pickup location.
